

# Autumn 2025 Student Life Coaches & Career Advisors host

Science &  
Engineering

## Orientation for Incoming Graduate Students

### Outline

In the general programs, Student Life Coaches will provide comprehensive information about the education systems in Science and Engineering courses, as well as counseling options and useful facilities.

Career Advisors will share the current job-hunting circumstances for Science and Engineering students.

Special career support session is also offered for international students who is seeking job opportunities in Japan.

On each date, current graduate students will share their own experiences too.
